

Fiber Optical Light Guide

GLF1-1600-9.0

100-010571

- For halogen and LED cold light sources
- Low head generation on object
- Versions with several flexible arms
- Best transmission
- High flexibility and luminous efficiency
- Spot illumination
- Adaptable to cold light sources from all manufacturers
- Adaptable to customer needs

Technical Data		Accessories	
Number of arms	1	Focusing optics for light guides	
Diameter active light guide	9,0 mm	Mounting systems	
Length	1600 mm	Adapter	
Light guide access	Standard 15 mm		
Diameter light output	18 mm		
Diameter light input	18 mm		
Outer tube diameter	16 mm		
Illumination	point-like		
Beam angle	70°		
Temperature input (light source)	max. 240°C		
Ambient temperature	max. 80°C		
Material tube	Steel spiral, PVC
